PROFESSIONAL SUMMARY

BS Information Technology student and full-stack web developer with hands-on experience building and deploying real-world applications end to end. Strong foundation in the MERN stack — React.js, Node.js, Express.js, and MongoDB — with REST APIs, authentication, and responsive UI development, extended with Next.js and TypeScript. Shipped a restaurant POS system in real daily use, a multi-vendor e-commerce platform, a real-estate marketplace, and a Next.js business dashboard.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Redux Toolkit

Backend: Node.js, Express.js, REST APIs, JWT Authentication, Middleware

Database & Storage: MongoDB, Mongoose, Supabase

Authentication & Services: Firebase Google OAuth, Socket.IO, PayPal, Cloudinary

Tools & Deployment: Git, GitHub, Vercel, Netlify, Railway, Vite, VS Code

PROJECTS

MERN Multi-Vendor E-commerce Platform | Live: e-commerce-shop-232n.vercel.app

- Built a full-stack marketplace with customer and shop-side functionality — search, categories, cart, wishlist, checkout, orders, reviews, and refunds.
- Developed shop-side product, inventory, order, refund, and event management, plus real-time customer messaging with Socket.IO.
- Implemented JWT and role-based authorization, PayPal payments, and Cloudinary image storage.

Lahori Lason — Restaurant POS System (in production use) | Live: lahori-lason-fast-food-397m.vercel.app

- Developed and deployed a full-stack restaurant POS system used for real daily order and sales operations.
- Built staff authentication, menu/category/deal management, cart and order processing, printable receipts, and an earnings dashboard.
- Built REST APIs with Node.js, Express.js, and MongoDB.

FizaEstate — Real Estate Platform | Live: mern-estate-theta-woad.vercel.app

- Built a full-stack real-estate marketplace with Google OAuth, property listing management, search/filtering, and favorites.
- Implemented CRUD operations with Redux Toolkit state management and JWT-protected routes.
- Built with React, Node.js, Express.js, MongoDB, Tailwind CSS, and Supabase for image storage; deployed on Vercel.

BizBoard — Business Dashboard | Live: bizboard-gilt.vercel.app

- Built a Next.js + TypeScript business dashboard with metrics, products, orders, customers, and analytics.
- Applied the Next.js App Router, Server and Client Components, and a mock API Route Handler.
- Built with React, TypeScript, and Tailwind CSS; deployed on Vercel.

Trippy — Tour & Travel Website | Live: frabjous-lamington-59bff7.netlify.app

- My first web development project — a travel booking site for browsing tours and destinations across different countries.
- Built a responsive frontend with destination listings, a recent tours section, and clean navigation.
- Built with HTML, CSS, and JavaScript, later extended with React; deployed on Netlify.

EDUCATION

Bachelor of Science in Information Technology (BS IT) — Government College University Faisalabad (GCUF) | 3rd Year
Intermediate — Punjab College, Gujranwala Campus

CERTIFICATIONS

- Dev Weekends Fellowship Certificate — July 2026
- MS Office Certificate — Sunshine School, Gujranwala

LANGUAGES

Urdu — Native | English — Proficient
